

## Petition to Stop Bill 5 and Protect Ontario's Future

To the Legislative Assembly of Ontario

**WHEREAS** Bill 5, the so-called “Protect Ontario by Unleashing Our Economy Act”, gives Premier Doug Ford and his Cabinet sweeping powers to override environmental protections, silence local voices, and ignore Indigenous rights;

**Mike Schreiner, MPP**  
Guelph

**AND WHEREAS** it revives the same pro-sprawl, anti-community agenda behind the Greenbelt scandal—this time on a province-wide scale;

**AND WHEREAS** Bill 5 would allow politically connected individuals and corporations to bypass environmental laws, planning rules, labour laws and democratic oversight through “Special Economic Zones”;

**AND WHEREAS** the bill weakens the Endangered Species Act, environmental assessments, and public consultation on major projects;

**WE THE UNDERSIGNED PETITION** the Legislative Assembly of Ontario as follows: To immediately withdraw Bill 5 and stop this attempt to strip away environmental safeguards, override Indigenous rights, and dismantle democratic oversight. We call for real investment in climate-ready, affordable, and inclusive communities—not a power grab for sprawl and speculation.
